6. [redacted] Hand carried to William Woodruff, on the staff of the Senate Appropriations Committee, "fact sheets" and photographs on the Harke and Homer Soviet helicopters in response to his earlier request. Woodruff asked if I knew the status of the Army's assessment of the Harke and I responded by indicating that we did not keep up with this on a day-to-day basis but it was my understanding that a substantial assessment had been made by the Army's Foreign Science and Technology Center and a report prepared on the basis of this which was probably available through Army channels.

Talked with Woodruff about arranging for him and Robert Michaels, on the staff of the House Appropriations Committee, to visit the Agency to view the Soviet film, "True Sons of the People" and to receive a briefing on a special project. This has been set for Thursday at 9:00 a.m.

I briefed Woodruff on the following items:

a. Soviet naval exercises in the Mediterranean.
b. Soviet satellite reconnaissance.
c. Soviet propaganda attacks on Yugoslovia and Romania.
d. Strategic arms talks.
e. Recent developments in Soviet attitude toward China.
f. North Korean exploitation of U.S. aircraft shoot-down.
g. "Realists" in new Czechoslovakian Government.
h. Soviet leadership difficulties.
i. Soviet SS-9 tests.
